Student Needs for Additional Support Rubric

Student Name:		DOB:Disa	bility:	Date Reviewed:
Case Manager:		School:	District:	
Select the number that best describes the student in each rubric category that is appropriate.				
	Health/Personal Care/Rating	Behavior/Rating	Instruction/Rating	Inclusion/Mainstreaming/Rating
0	General good health. No specialized health care procedure, medications taken, or time for health care. Independently maintains all "age appropriate" personal care.	Follows adult directions without frequent prompts or close supervision. Handles change and redirection. Usually gets along with peers and adults. Seeks out friends.	Participates fully in whole class instruction. Stays on task during typical instruction activity. Follows direction with few to no additional prompts.	Participates in some core curriculum within general education class and requires few modifications. Can find classroom. Usually socializes well with peers.
1	Mild or occasional health concerns. Allergies or other chronic health conditions. No specialized health care procedure. Medications administration takes less than 10 minutes time. Needs reminders to complete "age appropriate" personal care activities.	Follows adult directions but occasionally requires additional prompts. Occasional difficulty with peers or adults. Does not always seek out friends but plays if invited.	Participates in groups at instructional level but may require additional prompts, cues, or reinforcement. Requires reminders to stay on task, follow directions and to remain engaged in learning.	Participates with modification and accommodation. Needs occasional reminders of room and schedule. Requires some additional support to finish work and be responsible. Needs some social cueing to interact with peers appropriately.
2	Chronic health issues, generic specialized health care procedure. Takes medication. Health care intervention for 10-15 minutes daily (diet, blood sugar, medication). Requires reminders and additional prompts or limited hands on assistance for washing hands, using bathroom, wiping mouth, shoes, buttons, zippers, etc. Occasional toileting accidents.	Has problems following directions and behaving appropriately. Can be managed adequately with a classroom behavior management plan, but unable to experience much success without an individual behavior chart, checklist and behavior goal.	Cannot always participate in whole class instruction. Requires smaller groups and frequent verbal prompts, cues, or reinforcement. On task about 50% of the time with support. Requires more verbal prompts to follow directions.	Participate with visual supervision and occasional verbal prompts. Requires visual shadowing to get to class. Needs modifications and modifications to benefit from class activities. Regular socialization may require adult facilitation.
3*	Very specialized health care procedure and medication. Limited mobility. Physical limitations requiring assistance (stander, walker, gait trainer or wheelchair). Special food preparation or feeding. Health related interventions 15-45 minutes daily. Frequent physical prompts and direction assistance for personal care. Food preparation required regularly. Requires toilet schedule, training, direct help, diapering.	Has behavior problems almost daily. Defiant and/or prompt to physical aggression. Requires a Behavior Support Plan (BSP) and behavior goals and objectives on the IEP. Requires close visual supervision to implement BIP. Medication for ADD/ADHD or other behaviors.	Difficulty to participate in large group. Requires los student staff ration, close adult proximity and prompts including physical assistance to stay on task. Primarily complies only with SCIA directions and monitoring. Cognitive abilities and skills likely require modifications not typical for class as a whole. Needs Discrete Trial, ABA, Structured Teaching, PECS. Requires signing over 80% of the time.	Participation may require additional staff for direction instruction and behavioral support. Requires direct supervision going to and from class. Always requires modifications and accommodations for class work. Requires adult to facilitate social interaction with peers.
4*	Specialized health care procedure requiring care by specially trained employee (G tube, tracheotomy, cautherization). Takes medication, requires positioning or bracing multiple times daily. Health related interventions 45 minutes daily. Direct assistance with most personal care. Requires two-person lift. Direct SCIA assistance 45 or more minutes daily.	Serious behavior problems with potential for injury to self and others, runs away, aggressive on a daily basis. Functional Analysis of Behavior (FAA) or Hughes Bill has been completed and the student has a well-developed BIP, which must be implemented to allow the student to safely attend school. Staff has been trained in the management of assaultive behaviors (NCPI, ProAct, etc.)	Cannot participate in group without SCIA support. Requires constant verbal and physical prompting to stay on task and follow directions. Regularly requires specific 1:1 instructional strategies to benefit from the IEP. Cognitive abilities and skills require significant accommodation and modification not typical for the class group.	Always requires 1:1 staff in close proximity for direct instruction, safety, mobility or behavior monitoring. Requires SCIA assistance to go to and from class 80% of the time. Requires adult to facilitate social interaction with peers and remain in close proximity at all time.

Attach a copy of documentation indicating frequency and duration over a period of time to determine further consideration of special circumstance instructional assistance. If mostly ratings of 3's & 4's in to or more areas, continue with needs assessment process.
